

## Statement of Institutional Commitment

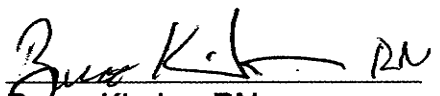

UCSF Fresno Medical Education program champions providing an ethical professional, and educational environment in which curricular and applicable requirements for furthering scholarly activity and general competencies can be met. UCSF Fresno seeks to improve the health of the public honoring educational systems that foster the development of outstanding physicians, medical scientists, and leaders of medicine who will respond to the Central Valley's evolving health care needs. We are committed to providing a diverse, supportive, and challenging educational environment so that residents can prepare for a variety of careers, all characterized by commitment to excellence, lifelong learning, and service to others through patient care, research, and teaching.

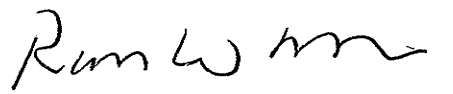

UCSF Fresno Graduate Medical Education, its administration and leadership are dedicated to providing:

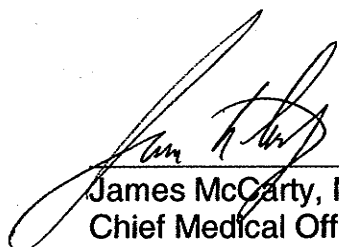

- o An essential educational working environment within our partnering facilities,
- o Financial support to ensure residency programs are enabled to provide quality in academic teaching and patient care,
- o Human Resources to support Graduate Medical Education,
