

# TO ALL SECOND YEAR MEDICAL STUDENTS

Do you find that you learn more when you can actually DO something rather than just hear about it or see it?

Are you interested in working with diverse and culturally rich populations?

Are you looking for a new clinical educational model that is patient-centered and student-focused?

If so, then read on because Model Fresno, the Next Generation is an opportunity that you don't want to miss!

## WHAT IS MODEL FRESNO, THE NEXT GENERATION?

- A group of 12 third year medical students, living in Fresno and studying at Fresno's Regional Medical Campus
- 6 months between August and February—Blocks 3, 4 & 5
- Top Priority for 3 core clerkships in Fresno's popular "hands on" training programs including surgery, pediatrics, OB/Gyn, FCM and Psychiatry/Neurology
- Weekly Seminar and Experiential Series focusing on practical topics beneficial to a future career in rural or urban underserved medicine that is patient-centered and student-focused
- Work and care for diverse populations that have difficulties with access to health care
- Half day per week longitudinal experience in a rural or urban underserved health care office or clinic or experience our new and exciting medical student-focused interdisciplinary Adult Health Care Center, home to patient centered health care and supervised by master clinicians and faculty mentors
- Student housing in one of Fresno's most popular apartment complexes
- Travel Allowance
- Meal Allowance for "On Call" Nights

## WHY CHOOSE MODEL FRESNO, THE NEXT GENERATION?

- Diversify your medical education by enhancing your adaptability to different medical experiences. Residency Programs look favorably on a student's commitment to diverse training experiences.
- Broaden your horizons by learning about rural and urban underserved health care in the Valley
- Gain practical hands on training
- Learn in a small group supportive environment
- Experience student centered, patient focused interdisciplinary medicine at our new student run patient care center.

## WHY HAS MODEL FRESNO EVOLVED TO THE NEXT GENERATION?

- Not only does Model Fresno continue in its focus of working with rural and urban underserved populations but we are excited to offer a new interdisciplinary model of training within the longitudinal clinical experience that is patient centered and student focused. **YOU WILL NOT BE DISAPPOINTED!** Model Fresno, the Next Generation is preparation for the next generation of physicians—**YOU!**

## HOW DO I LEARN MORE ABOUT MODEL FRESNO?

- Attend UCSF informational sessions for third year options
- Learn about our new patient centered and student focused interdisciplinary longitudinal clinical experience option
- Review UCSF Fresno website and IRocket for more detailed Fresno information: [http://www.fresno.ucsf.edu/undergrad/unique\\_opportunities.htm](http://www.fresno.ucsf.edu/undergrad/unique_opportunities.htm)
- Connect with current/past Model Fresno students for detailed information
