

Do you care for someone with Alzheimer's disease or dementia?

Do you wish to help change the future of dementia care?

*Join the
Care Ecosystem study!*

Patients must:

- Have a diagnosis of dementia
- Be covered by Medicare or Medicaid insurance
- Have a caregiver who is also willing to participate
- Not live in a skilled nursing facility

Goals of the study:

- Learn about the needs of people with dementia and their caregivers
- Improve the care of people with dementia
- Reduce the overall cost of dementia care
